

Superpro 700 Trans Backpack

The Superpro Trans 700 is specifically designed and wired for on-board power systems found on aircraft which supply 110-120 volt and 400hz power. Pacvac prides itself on ensuring all products are produced to comply with the highest health and safety regulations. The Superpro Trans 700 is manufactured in full compliance with electrical standards, being Australian and International Standard IEC 60335-2-2.

The Superpro Trans 700 is also accepted by the Carpet Rug Institute, Chiropractors' Association of Australia, Health and Safety Matters Pty Ltd and many other Occupational Health and Safety organisations.

Caution - This product is designed for a 120 volt/ 400 Hz power supply. Connection to other power supplies will result in damage or machine failure.

Features:

- Ametek 950 watt 2 stage motor.
- Cyclonic airflow ow from the offset inlet clear dome lid gives stronger, more consistent airflow – more vacuuming power.
- 4 stage HEPA filtration.
- Ergonomically designed frame - new extended 'body-moulded' frame for increased comfort and anatomically correct posture – a critical OH & S factor.
- Adjustable Harness - Thicker, padded and fully adjustable to fit all body types.
- Two piece wand and combination floor tool as standard.
- Double looped cord restraint - prevents accidental disconnection of power cord.

Free:

- Crevice tool, dusting brush and upholstery tool supplied.
- Extra cloth dust bag.
- Packet of 5 paper bags.
- Productivity Booster Kit.
- On-machine Safety and Maintenance labelling.
- Graphics based Product Manual.
