# AllStar

The new AS- all- purpose vacuum cleaner

One  
for all

## The new Starmix AS- all- purpose series

Compact, flexible and robust. Perfect for house, garden and hobby. But the new powerful all- purpose series “Made in Germany” was also developed for the workshop and the construction site. Various container sizes, application- oriented accessories and thought through solutions in detail makes the new Starmix all-purpose vacuum cleaner to a helpful companion - everywhere where cleanness is in demand.

### Dry cleaning:

In household, garden, basement and hobby room. At the construction site, in the workshop or in the garage ...  
**(all AS- models)**

### Wet cleaning:

In household, garden, basement and hobby room. On the construction site, in the workshop or garage ...  
**(all AS- models)**

! For suctioning of bigger liquid quantities we recommend to insert the foam filter FSS 1200 !

### Coarse dirt cleaning / car cleaning:

For garden vacuuming, disposal of leaves, cleaning of gutters and light shafts. Respectively for the workshop or construction site to handle coarse dirt and shavings. By using the specific car cleaning set also perfectly suited for car interior cleaning.  
**(AS 1232 PG+)**

### Vacuumping at the electric tool:

By integrated appliance socket **(AS A-1232 EH+)** and filter cleaning mechanism **(AS AR-1232 EH+)** these models are optimally suited to vacuum dust and shavings direct at the electric tool.

Areas of application	AS 1220 P+	AS 1232 PG+	AS A-1232 EH+	AS AR-1232 EH+
Ground cleaning wet / dry	●	●	●	●

### Recommendable accessory

**Foam filter FSS 1200**  
filter for liquids if water will be vacuumed a lot and often  
**Order no. 41 32 97**

**Push handle B32/45**  
for comfortable transport for all 32l canister  
**Order no. 04 59 00**

**Cellulose filter cartridge FP 3600**  
for models without filter cleaning  
**Order no. 41 17 29**

**bohrfixx drilling dust extraction**  
for absolute dust-free working also overhead  
**Order no. 01 13 70**

**Paper filter bag FB 20**  
for all 20l canister PU = 5 pieces  
**Order no. 41 17 12**

**Paper filter bag FB 32/35**  
for all 32l canister PU = 5 pieces  
**Order no. 41 30 99**

**Polyester filter cartridge FPPR 3600**  
for models with filter cleaning  
**Order no. 41 34 64**

**Nozzle set 35/49**  
1x crevice nozzle (37 cm long)  
1x suction brush round  
1x suction brush  
1x upholstery nozzle  
1x adapter from Ø 49 to Ø 35mm connection system  
**Order no. 01 41 42**

### Accessories P+

**System Ø 35 mm**  
1 x suction hose (1,75 m)  
1 x plastic tube handle  
2 x plastic suction tube  
1 x crevice nozzle  
1 x floor nozzle 26

### Accessories PG+

**System Ø 49 mm**  
1 x suction hose (1,75 m)  
2 x plastic suction tube  
1 x coarse dirt nozzle  
1 x coarse dirt-floor nozzle 36  
1 x fine brush set  
1 x upholstery nozzle  
1 x crevice nozzle  
1 x adapter from 49 auf 35 mm connectingssystem

### Accessories EH+

**System Ø 35 mm**  
1 x suction hose (3,2 m)  
1 x plastic tube handle  
2 x plastic suction tube  
1 x crevice nozzle  
1 x rubber nozzle  
1 x universal nozzle 25 (reversible)  
1 x bohrfixx drill dust extractor

### Accessories EH+

**System Ø 35 mm**  
1 x suction hose (3,2 m)  
1 x plastic tube handle  
2 x plastic suction tube  
1 x crevice nozzle  
1 x rubber nozzle  
1 x universal nozzle 25 (reversible)  
1 x bohrfixx drill dust extractor

**Quality „Made in Germany“**  
Starmix quality from ELECTROSTAR – the vacuum specialist for more than 90 years!

**Antistatic prepared\***

To prevent electrostatic charging, all models with antistatic preparation can be retrofitted with special antistatic accessory.  
\* comes only with A- and AR- model

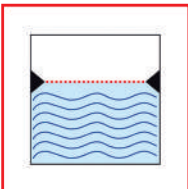

**Compact construction, new design**

With practical solutions in detail, e.g. the new integrated cable- and hose rewind within the carrying handle and plug fixation.  
+ easy, compact, flexible and good to transport

**Accessory storage / tube clip**

All 20I- models are equipped with a practical tube clip to fix the tube during the work break or to storage. All 32I- models are coming with an accessory storage to store the complete accessory during the work respectively transport.

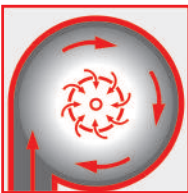

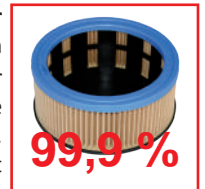

**Water stop**

Pneumatic water level detection  
As soon as the maximum filling level for wet vacuuming has been reached the vacuum cleaner switches off automatically.  
+ no container overflow

**Efficient filter**

Extremely sturdy folded filter cartridges with 3600 cm<sup>2</sup> filter surface and optimized filter materials (cellulose and polyester) guarantee always optimal dust retention results.  
+ low system costs and extremely high dust retention

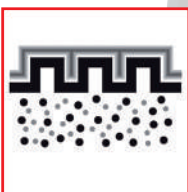

**Container**

Shock- resistant plastic container with Starmix tangential cyclone principle; Tangential air inlet for deflection-free dirt intake.  
+ no clogged suction intake  
+ no damaged filter

**Heavy- duty special motor fan**

Bypass- principle (two separated air- flows for cooling and working air) enables to vacuum liquids and an optimal motor fan cooling.  
+ extremely long service life

**Electromagnetic pulse - filter cleaning\***

The filter cleaning mechanism will be activated by pushing the cleaning button and deactivated by let go off.  
+ significant reduced system costs by longer service life  
+ good cleaning performance

\* comes only with the AR- model

**Appliance socket with automatic ON/ OFF switch\***

For the connection of electric tools. Dust and chips are therefore drawn away directly where they arise. When the electric tool connected is started up or switched off, the vacuum cleaner is automatically switched on or off.

+ saves time and energy

\* comes only with the A- and AR- model
