M CLASS RATED

Approved for protection against fatal lung disease

99.9% FILTRATION EFFICIENCY

Unrated vacuum cleaners can exhaust up to 85% of harmful dust back into your breathing space. This dust can't be seen by the naked eye and remains airborne for up to 8 hours. The DURAVAC®M-CLASS MAXUM filter protects your motor and your health!

EXTRACTION VELOCITY MONITOR

To sufficiently extract dust at source you need a minimum extraction velocity of 20 metres per second. The DURAVAC®M-CLASS MAXUM will notify you if the air flow drops below this level to keep you working efficiently.

INTEGRATED FILTER SHAKER SYSTEM

The DURAVAC®M-CLASS MAXUM helps you to unclog the filter without exposing yourself to harm dust by using an integrated Filter Shaker System. And if you never need to give the filter a good deep clean: simply remove the filter and place it in the dishwasher!

UNIVERSAL POWERTOOL CONNECTOR

The DURAVAC®M-CLASS MAXUM comes with a universal power tool connector enabling you to extract dust from any power tool with a collection shroud and suction port!

DURAVAC 5X ANTI-KINK HOSE

Latest technology hose. Extends to 5 times its length for operation and automatically retracts for storage. Impossible to kink during normal operation.

SPECIFICATION

ANTI-STATIC 3m HOSE
M CLASS (H13) HEPA FILTRATION
CABLE LENGTH: 5m
MOTOR POWER: 800 WATT
VOLTAGE: 230 VOLTAGE – 50/60HZ
SUCTION LIFT POWER: 2400mm / 18KPA (180MBAR)
TANK SIZE: 15 LITRES. (BAG CAPACITY 8 LITRES)
WEIGHT: NETT: 5kg (GROSS: 7kg PACKAGE WEIGHT)
OPERATING NOISE LEVEL (dB9A)): 76
DIMENSIONS: MACHINE (H x W x D)
42 x 34 x 36cm (PACKAGE: 43 x 40 x 37cm)
